ANNUAL REPORT

1982/83

Yukon
Department of Education

The Honourable Bea Firth
Minister Responsible
for Education, Recreation
and Manpower

ANNUAL REPORT : DEPARTMENT OF EDUCATION

I respectfully submit for your consideration and that of the Yukon Legislative Assembly the Annual Report of the Department of Education, Recreation and Manpower for the 1982/83 fiscal year.

Jim Davie
Deputy Minister, Education
Recreation & Manpower

DEPARTMENT OF EDUCATION

PERSONNEL - March 31, 1983

Minister of Education:
B. Firth

Deputy Minister, Education:
J. Davie

Assistant Deputy Minister, Education
Wm. Schoeman

Assistant Deputy Minister, Advanced Education and Manpower:
D. Odin

Superintendents:

D. Courtice	: Regional Superintendent of Schools
J. MacNeill	: Regional Superintendent of Schools
W. Ferguson	: Supt. of Curriculum and Instructional Services

Field Personnel:

H. Weigel	: Director of Student Services
J.P. Flament	: Coordinator of French Language Programs
A. Fedoriak	: School Services and Maintenance Supervisor
M. Wearmouth	: Post-Secondary Grants & Loan & Teacher Recruitment
J. McCrie	: Primary Supervisor
B. Biles	: Intermediate Supervisor
B. Sheardown	: Coordinator, Career Counselling Services

Administrative Services:

S. Marinoske	: Departmental Administrator

Advanced Education and Manpower:

K. Smith	: Director, Manpower Planning & Industrial Training
M. Ursich	: Branch Administrator
L. Hawkins	: Coordinator, Program Planning
A. Stephenson	: Director, Yukon College
R. McIntyre	: Director, Yukon Campus

Recreation Services:

R. Butler	: Director
R. McCullough	: Arts/Recreation Consultant
vacant	: Sports/Recreation Consultant

REPORT OF THE DEPUTY MINISTER

The Department's major responsibilities are the provision of educational and recreational programs to Yukon residents. To carry out these functions the Deputy Minister advises the Minister of Education through regular consultations and acts on her behalf as required. The Deputy Minister is responsible for the direction of all programs and budgets and oversees the management and administration of the four branches within the Department of Education. Advising the Deputy Minister on all aspects of education is the Education Council which consists of representatives of elected School Committees.

Major Activities During 1982/83:

- attendance at meetings of the Council of Ministers of Education;
- presentation of the Deputy Minister's Annual Report at the Eighth Annual Conference of School Committees;
- attendance at regular meetings of the Education Council;
- representation at a variety of functions to deliver formal addresses, conduct media interviews, and participate at seminars;
- attendance at department and interdepartmental meetings dealing with educational as well as other governmental concerns;
- participation in joint consultation meetings with the Yukon Teachers' Association and with the Principals Vice-Principals Association.

Major Accomplishments:

- continued review of Recreation Branch legislation and policy;
- major school construction projects were initiated and some were completed;
- Yukon College was created;
- a study of the philosophy, goals and objectives of elementary and secondary education was initiated.

Jim Davie
Deputy Minister, Education

PUBLIC SCHOOLS BRANCH

The Public Schools Branch provides elementary and secondary education for the 4,638 students enrolled in 10 urban and 16 rural schools in Yukon. It also provides loans and grants to Yukon students entering post-secondary institutions.

1. Curriculum Services: - Major Accomplishments

   - French Immersion Program extended to Grade 2 at Whitehorse Elementary School;
   - Vive le Francais, a new French as a Second Language Program, was introduced in Grades 5, 6, and 7 in Yukon schools;
   - micro-computers have been purchased and introduced in the majority of schools in Yukon;
   - new programs in English 11 and English 12 provide an emphasis in written language, composition and the study of Canadian novels;
   - a Yukon Environmental Handbook, produced through a cooperative effort of the Yukon Conservation Society, Yukon teachers, and the Department of Education, was made available to elementary school teachers;
   - the Yukon Teachers' Association and the Department of Education jointly provided professional development for teachers in mathematics education.

2. Language Services:

a) Yukon Native Languages:

The Yukon Native Languages Project (YNLP) is administered by the Council for Yukon Indians with funds provided by the Government of Yukon. During 1982/83 the YNLP staff consisted of one Director/Linguist, two Native Language Specialists, an Anthropologist, and two classroom teachers seconded from the school system.

The ongoing aims of the project are:

(1) to provide technical and practical support to native languages programs currently operating in Yukon schools.

(2) to train native Yukoners to read, write, and teach their languages.

(3) to conduct basic scientific work on all Yukon native languages in order to document them for the benefit of future generations.

(4) to develop dictionaries and educationally sound teaching materials for the languages.

(5) to record and transcribe stories, legends, and local history which may be edited for use in the classroom.

a) Yukon Native Languages: continued

Programs 1982/83:

All of the six major native languages spoken in Yukon were taught to school children somewhere in the Territory. They are taught in oral, second-language classes, usually in the elementary grades. Programs in operation are indicated below:

Community	Language
Burwash	Southern Tutchone
Carcross	Tlingit
Carmacks	Northern Tutchone
Dawson	Northern Tutchone
Haines Junction	Southern Tutchone
Mayo	Northern Tutchone
Old Crow	Loucheux
Pelly Crossing	Northern Tutchone
Ross River	Kaska
Teslin	Tlingit
Watson Lake	Kaska
Christ the King Jr. High	Northern Tutchone
Whitehorse Elementary	Southern Tutchone

b) French Language:

The French Language program is jointly funded by the Government of Yukon and the Government of Canada. The objectives are to provide F.S.L. and immersion instruction in Yukon schools, to provide post-secondary bursaries, to direct adult non-credit French Extension programs, and to administer the French Monitor program.

As a result of revisions, Yukon schools presently follow the "Vive le Francais" program in the elementary grades. The revision of the secondary program is now in progress.

The Whitehorse Primary French Immersion project completed the third year of a five-year pilot program. French Immersion was also offered in Faro at the Kindergarten level.

Two Yukon students benefited from the language bursary program. Two full-time monitors were employed in the elementary and secondary schools.

Despite the severe restrictions caused by economic hard times, non-credit French courses were offered at all levels to 155 adults in Whitehorse, Haines Junction and Dawson City.

3. Post-Secondary Grants & Loans:

The Government, through grants and loans, assists Yukon students attending post-secondary institutions outside of Yukon. The Students' Financial Assistance Committee recommends to the Minister the students eligible for financial assistance. During 1982/83 the Government awarded 272 grants and 139 certificates of eligibility for student loans under the Canada Student Loans Plan.

In addition to grants and loans, the Committee awarded 14 scholarships.

4. Facilities:

Three new schools were opened in Yukon during 1982/83. Bea Firth, the Minister of Education, presided at the official openings of the new Chief Zzeh Gittlit School at Old Crow, September 24, 1982, the new Porter Creek Junior High School in Whitehorse, October 28, 1982, and the new Eliza Van Bibber School in Pelly Crossing, February 24, 1983.

Planning for the additions to Carcross School and Christ the King Junior High School, and major heating renovations at Whitehorse Elementary School have been finalized and work will begin in July 1983.

RECREATION BRANCH

Major Responsibilities:

Support to Community Recreation by providing:

- base grants for community recreation, sports and arts programs;
- consultative/organizational assistance for program and administrative development.

Support to Territorial Sports, Fitness, Arts and Special Programs by providing:

- grants to territorial groups for administration, programs and skill development;
- consultative/organizational assistance for program and administrative development;
- specific Branch programs including Canada Games, Arctic Winter Games, Coaching Certification, Arts Contact and the Artist in the Schools Program.

Major Accomplishments:

1. Recreation Review:

The 1982/83 year saw further developments in the major review of Yukon's Recreation, Sports and Arts services.

In April, a Recreation Review Seminar was held to discuss the sixty written briefs presented to the Recreation Review Committee. Over one hundred delegates to the Seminar passed various resolutions respecting recreation development.

Then Minister of Education, Meg McCall, called for the writing of a green paper from which future legislation policies and programs would be developed. A ministerial appointed Green Paper Committee was struck to work with the Recreation Branch through the drafting of the Paper. Upon completion of the Paper in October, over twenty territorial community meetings were held to discuss it and subsequent drafts.

Major consensus has been reached. Program changes reflecting this consensus are being implemented while new legislation is being proposed in the 1983/84 year.

Because of much volunteer effort throughout the entire process, costs of the Recreation Review have been met entirely within existing resources of the Recreation Branch.

2. Community Recreation:

Sixteen local authorities received over $113,000 through the Recreation Assistance Program to assist community recreation programs and services.

Nine community pool programs were funded and assisted by the Recreation Branch. Beaver Creek, Carmacks, Carcross, Dawson City, Elsa, Faro, Mayo, Teslin, and Watson Lake all ran very successful summer swimming programs. Responding to community concerns for greater local control, the Pool Program is being devolved from a Recreation Branch responsibility to a community responsibility.

Yukon Scout Council, Girl Guides, Special Olympics and Skookum Jim Friendship Centre received financial assistance for support of their special community programs.

The Yukon Games Program has also responded to requests for more community/grass roots control of recreation. The 1983 Games were restructured to foster better local participation in their administration. The communities, in partnership with the Yukon Sports Federation, ran the March Yukon Winter Games involving over 400 athletes. Yukon Winter and Summer Games will likely become biennial events in non Arctic Winter Games years.

Because of the magnitude of the Recreation Review Project consulting resources were limited. However the North Highway Workshop and a few community recreation workshops were held in various Yukon communities.

3. Territorial Sports and Fitness:

Twenty five territorial sport governing bodies received a total of $130,000 for competition travel, technical training, elite athlete assistance and administration. The Yukon Sports Federation received $25,000 for its sport support programs, while Yukon's Territorial Experimental Ski Training (T.E.S.T.) Program received $15,000 for its successful fitness projects.

Bea Firth, Minister of Education and Recreation, presented six athletes with the Minister's Sport Achievement Award for attaining top three placing in national/international competition. Recipients of this year's awards were Monique Waterreus, Cross Country Skiing; George Mason, Boxing; John Millar and Doug MacKrell, Shooting; Becci James and Kathy Hammer, Table Tennis.

The 1983 Canada Winter Games saw 66 of Yukon's best athletes culminate their two years of training in a fine effort at Saguenay Lac St.-Jean, Quebec. Cross country skiing, alpine skiing, boxing, figure skating, table tennis, gymnastics, badminton, judo, weightlifting and curling were represented on Team Yukon '83.

Twenty nine Yukon coaches successfully completed the National Coaching Certification Program Level I Theory course run by the Recreation Branch. Various territorial sport governing bodies graduated thirty five coaches from Level I Technical courses, while approximately 350 players, coaches and officials took part in other types of skill/leadership development clinics. The Canada Fitness Award Program was also coordinated by the Recreation Branch. Several hundred students qualified for one of the four levels of fitness achievement.

4. Territorial Arts:

Five territorial arts organizations received a total of $35,000 for skill training, territorial programs and administration. Approximately 190 participants took part in 12 workshops implemented by arts organizations. Workshops ranged from script writing to visual arts training to fund raising.

The Yukon Arts Council with assistance from the Recreation Branch provided a very successful season of performing arts on tour. Approximately 7,700 Yukoners attended performances across Yukon. Touring artists also provided many well received workshops in various Yukon Schools.

The Recreation Branch sponsored the second annual "Yukon Contact". This provided artists the opportunity to "showcase" their talent for community sponsors from across Yukon. Workshops were also held to train the sponsors in the management of shows.

5. Special Recreation Programs

Boy Scouts, Girl Guides, Special Olympics and Skookum Jim Friendship Centre received grants totalling $26,600 for their special recreation programs.

Recreation Branch staff assisted the Yukon Sourdough Rendezvous by coordinating shows in Whitehorse schools and the annual Mad Trapper Event.

6. Yukon Recreation Advisory Committee and Yukon Lottery Commission

The Yukon Recreation Advisory Committee met three times in 1982/83 to make recommendations respecting the Recreation Review and to advise the Minister on grants to territorial organizations.

The Yukon Lottery Commission met twice this year to distribute over $133,000 from lottery profits to Yukon recreation groups.

The Recreation Branch continued in its role of providing consultative assistance and administrative support to both these bodies.

ADVANCED EDUCATION AND MANPOWER BRANCH

The Advanced Education & Manpower Branch is responsible for:

- institutional training;
- apprenticeship training;
- tradesmen's certification;
- industrial training;
- manpower planning;
- employment development programs.

1. Institutional Training

Organizational Patterns:

With the inception of Yukon College in March of 1983, delivery of Yukon post-secondary education and training was integrated under one administrative structure. The change to College status recognizes an existing diversity in programming and allows the development of a highly coordinated delivery system. The College offers programming varying in application from academic upgrading through trades and technical to multi-year programming in Business Administration and University Transfer, and varying in delivery from part-time to full-time and from centrally delivered to mobile instruction.

Integration of services coupled with increased full-time enrolments in Whitehorse has led to the creation of two Yukon College Annexes -- one located at F. H. Collins High School, and another at the site of the former Yukon Campus.

Organizational Patterns: continued

The designation of College status and the integration of post-secondary services call for a maturation of program support services. Development of effective services is progressing in all areas ranging from financial to program evaluation, and from program and curriculum development to the renovation of facilities. The introduction, in the current year, of instructor skills training for part-time and short course instructors is an example of the College's commitment to sound planning, quality control and the development of local potentials.

Programming Patterns:

As part of the College's intent to revise programming in keeping with quality, cost and market needs, surveying is being offered on an alternate-year basis with Drafting, the Nursing Assistants program has been reduced from two annual offerings to one, and Construction Carpentry and Heavy Equipment Operators programs have been temporarily cancelled.

Trends do not, however, equate to cancellations. Welding was offered in the current year after a previous years cancellation. Energy Auditing was offered for the first time in response to the developing need for personnel trained to assess the energy efficiency of residential and commercial buildings. Carpentry Extended Practicum was offered as a viable work experience alternative for Apprentice level Carpenters otherwise unable to gain time-credit due to employment conditions. Offerings of trades upgrading courses were increased. The first full year of Business Administration was offered. College Preparation -- grades 11/12 adult academic equivalent -- began. A Community Learning Centre opened in Mayo. A full-time adult upgrading program and an Arts and Crafts program began at Whitehorse Correctional Centre. Full time adult upgrading began in Watson Lake integrating a former program run at Upper Liard. Two extra intakes of adult upgrading were initiated in Whitehorse for completion in August.

Future Patterns:

The planning and development of future programming is continuing with the revision of existing programming -- business education will be offered on a continuous entry basis and on a part-time credit basis to communities in the Fall of 1983 -- and the establishment of new programs -- basic literacy (adult grade equivalent 0-5) and a new mobile training unit in basic home repair are also scheduled for introduction during the 83-84 College year.

2. Apprenticeship Training and Tradesmen's Certification

Apprenticeship Training

In 1982-83 the number of registered apprentices in Yukon included 163 apprentices registered in 13 trades. However, poor economic conditions and high unemployment have accounted for increased unemployment among apprentices. The rate varied but reached an alarming level of approximately 70% of registered apprentices unemployed in March 1983.

Third and Fourth year carpenter apprentices attended their in-school training in Yukon, with 11 apprentices completing Level III and 10 completing Level IV from January to March 1983. In addition, a 5 month Carpenter Apprentice Extended Training Course and a 6 week Heavy Equipment Mechanic Extended Training Course were held to assist 29 unemployed apprentices in these trades continue their training.

Due to the limited facilities presently available in Yukon and the smaller number of apprentices, most of the apprentices still attend their in-school training outside of Yukon in the province of British Columbia and Alberta.

In all trades, a total of 33 apprentices completed their apprenticeship programs during the 1982-83 fiscal year.

Journeyman Certification:

From April 1982 to March 1983, an unprecedented number, 86 journeymen received certification in trades through the trademen's qualification route. These were in addition to the 33 apprentices who earned Journeyman Certification upon completion of their apprenticeship programs. Of the 119 journeymen who qualified for a Yukon Certificate of Qualification, 113 were eligible and received an Interprovincial Standards Red Seal on their Certificates of Qualification.

A number of the journeymen received certification after attending Journeyman Upgrading Courses. Over the last year, a total of 90 tradespeople participated in the following upgrading classes:

- Heavy Equipment Mechanic (two classes)
- Motor Vehicle Mechanic
- Industrial Mechanic
- Welder (two classes)
- Carpentry

The Industrial Mechanic and one of the Welder classes were held at the Cyprus Anvil Mine Site (Faro), while the rest were delivered at the Yukon College.

Industrial Training:

Under the Canada/Yukon Occupational Training Agreement, training done in Yukon through the General Industrial Training (G.I.T.) and Critical Trades Skills Training (C.T.S.T.) programs are approved and monitored by the Territorial training consultants. In the 1982-83 year approximately 49 contracts, covering a diverse range of skills development programs, were entered into by Yukon industries and businesses. The portion of the wages and training costs reimbursed by federal funding amounted to approximately $215,939.

3. Employment Development Programs

Yukon entered the field of job creation and retention in a significant manner during the fiscal year 1982/83 through the implementation of a number of programs which are funded either solely by Yukon or jointly with the Canada Employment and Immigration Commission.

The programs are outlined below showing the amount of Y.T.G. funding allocated to each in 1982/83:

1.	YTG Summer Student Career Development Program Funded by the Department of Education		$ 50,000
2.	Special Employment Assistance Program for Yukon Students		200,000
3.	Section 38 U.I. Job Creation - Faro - June 1982 - Two projects funded by Department of Education		66,600
4.	Y.T.G.'s Employment Development Program comprised of:		1,000,000
	a) Incremental Job Creation (includes YTG O & M)	491,665	
	b) Job Retention for Small Business	125,000	
	c) Yukon/Canada Community Recovery Program under Section 38, U.I. Act	300,000	
	d) Salaries, Travel and advertising	80,000	
	e) Unallocated	3,335	

While the overall purpose of such programs is job creation and retention, the programs are not general in nature, but are designed to address specific areas of concern arising within a depressed economy. This is readily apparent in program title and more specifically, in program criteria, i.e. only U.I. recipients are eligible for the Community Recovery Program.

Over and above the primary goal of job creation and retention, such programs are seen to generate additional benefits, some of which might be:

a) stimulation of the private sector through material purchase and equipment use,

b) generating additional funding from:

   i) Sponsors,
   ii) Federal coffers,
   iii) Others, ie. total expenditures of the No. 3 Program shown above, was $708,700 when other funding sources are included.

c) long range social and economic benefits:

   i) Community enhancement,
   ii) Business enhancement,
   iii) General circulation of program dollars,
   iv) Reduced social problems,
   v) Retention of workers (Taxpayers)

STATISTICAL APPENDIX

MARCH 31, 1983

1.1 ENROLMENT BY SCHOOLS *

School	Type	Location	Enrolment March 83	March 82
